

## THE ORIGINAL SLEEP SOUND GENERATOR.

This compact device produces a gentle whooshing noise that helps block intermittent or continuous annoying sounds such as traffic, ticking clocks, and footsteps so you can relax and fall asleep easily. Ideal for use in a baby's room to provide a soothing atmosphere, it can also be used in the office to mask distracting sounds for professionals and students who require a quieter

environment for concentration. High-impact plastic case has a perforated top and side which can be adjusted for soft and amplified settings, and a rocker switch lets you select two frequency levels. Plugs into AC. 3 1/2" H x 6 1/2" Diam. (1 1/2 lbs.)  
FP-60586 \$54.95

**Single Sound Model.** As above, but with one frequency level.  
FP-60587 \$49.95

## THE ONLY 52" WIDESCREEN PERSONAL MOVIE THEATER.

This is the only personal media viewer that provides a private viewing experience equivalent to watching a widescreen 52" television from 9' away. It connects to a video iPod, portable DVD player, or personal video game system and uses two high-resolution LCDs and dual stereo headphones. Developed from U.S. military technology, the viewer generates 24-bit true color (16 million colors) and a 28° field of view for wide pictures, and the removable headphones produce crisp, clear sound. The LCDs provide 428 x 240 resolution, and may be focused individually from +2 to -5 diopters and tilted up to 15° for a custom fit; an optional head strap ensures comfortable viewing. Includes one AA battery that provides up to eight hours of continuous operation. Includes iPod cable, A/V cable, head strap, and carrying case. (4 oz.)

## THE VIDEO CAMERA PEN.

This is the ball-point pen that has a built-in video camera, capturing conversations with a press of a button. Ideal for use while secured in a pocket, its built-in color camera lens is located just above the pocket clip and its microphone is located on the side of the barrel under the pocket clip, yet both are inconspicuous enough to avoid detection. It can record video and audio from up to 50' away. Up to 2 1/4 hours of video can be captured at 352 x 288 resolution and stored in the pen's integrated 4 GB memory as an AVI file. Its lithium battery provides up to two hours of power before requiring a recharge from the included USB adapter, which plugs into AC; the pen's built-in USB 2.0 port allows you to download videos when connected to a computer (Windows 2000/XP/Vista). The pen is refillable. 5 1/2" L. (1 oz.)

## THE AUTHENTIC SOUTHERN SWEET TEA BREWER.

This iced tea brewing machine makes up to two quarts of authentic Southern sweet tea that's ready to drink in 10 minutes. An iconic Dixieland refreshment that originated in the late 19th century, sweet tea is favored for its ice-cold sweetness on sweltering summer days. The machine automatically steeps tea at the proper temperature (204° F) for optimal flavor extraction and adds your preferred amount of sugar while the tea is hot, ensuring the sugar granules dissolve and producing a consistent level of sweetness. As

simple to use and as unobtrusive as a coffee maker, the automatic sweet tea brewer allows you to adjust the strength of the brewed tea at the turn of a dial and it accommodates any kind of loose leaf or bagged tea. Includes a 2 1/2-quart glass pitcher with an ice level marking and a reusable stainless steel tea filter. Can also make unsweetened tea. Hand wash plastic parts; pitcher is dishwasher safe. Plugs into AC. 15 1/4" H x 7 1/4" W x 10 1/4" D. (6 lbs.)
