Overview
This assignment is a group assignment. You and your team members should attempt to solve as many of the problems listed below as possible. Be prepared to discuss the problems in class (November 11th). Teams will either be asked to volunteer or called on to present solutions to the problems. Remember, class participation is counted as part of the semester grade.

Problems
1. Bertsekas and Gallagher, Problem 3.7
2. Bertsekas and Gallagher, Problem 3.11
3. Bertsekas and Gallagher, Problem 3.16
4. Bertsekas and Gallagher, Problem 3.20
