Spring 2026

The Forces and Strategies that shaped the Wireless Revolution

An Innovation in Multidisciplinary Education

- ❑ Course introduced in 2008
- ❑ Created and co-taught with Richard (Dick) Frenkiel
 - *Inventor of the Cellular System, National Medal of Technology Winner, Member of the National Academy of Engineering, Winner of the Draper Prize, Former Mayor of Manalapan, NJ*
 - Dick retired from teaching in 2021 but his contributions to teaching the “Wireless Revolution” will never be forgotten!
- ❑ Open to all sophomores, juniors and seniors at Rutgers (some freshmen/women too)
 - Humanities/Social Sciences elective for students in School of Engineering
 - Technical elective for students in School of Arts & Sciences, School of Communication & Information, etc.
 - Taught in “Flipped” Mode since 2021
